## Newsletter June 2021

### Looking ahead to September

As we head into the final half term of this exceptional academic year, we aim to offer some reassurance and support in relation to the breadth of professional development services and provision across our Trust.

As the Teaching School Hub moves closer to its launch in September, its continued aim is to ensure that school leaders and staff are well supported and informed about the positive changes which are ahead. Strategic partners have been working together to prepare the offer across a range of areas.

We are looking forward to the arrival of the Teaching School Hub website. Following months of construction and consideration, we aim to share this with you in the final edition of our newsletter. The aim of this website is to support you in navigating the complex landscape of CPD

## Early Career Framework

Further to the publication of the new statutory guidance for the induction of Early Career Teachers (formally known as Newly Qualified Teachers), we would like to provide an update regarding the position of our newly designated Teaching School Hub, and our role as the Appropriate Body for induction of new teachers.

The Teaching School Hub and partners have worked hard to ensure that the information and support available in relation to enrolling an NQT or ECTs. We have been delighted by the number of schools who have been able to attend and offer positive feedback in relation to the 'ECF Ready Events.' Due to considerable demand, we have added further dates, alongside a handbook and a FAQ document to support schools in registering an ECT. Please do ensure that you secure a place to hear more about the national updates and changes which are ahead.

# NPQ's - National Professional Qualifications

## **NPQs – National Professional Qualifications**

National Professional Qualifications (NPQ) are trusted, transferable qualifications accredited by the DfE. They are designed to support all pupils to succeed and help teachers hone and develop their skills, enabling them to become a more effective leader inside and beyond the classroom. We are committed to ensuring that NPQs offer the best possible support to teachers and leaders, wanting to expand their knowledge and skills.

The DfE are investing heavily in a strategic approach to the covid recovery with the expectation that there will be a significant investment in teacher and leadership development within schools. They have committed £184 million of new funding for National Professional Qualifications to support this.

We are thrilled by the arrival of the new suite of NPQ qualifications and look forward to building upon the existing expertise in providing high- quality leadership training across Lincolnshire. The National Professional Qualifications (NPQs) will be available from September 2021 with the first cohort beginning in November 2021.

**To ensure that you are kept updated with developments in relation to the NPQ programmes and the funding available**, please register your interest within the following form: [CLICK HERE](#)
